CRITERIA FOR ACCEPTANCE

The Bluegrass Tournament is **not a first-come, first-served event**. Registration online only guarantees your club's consideration for the event.

When the selection process begins, the tournament uses the list of criteria listed below to help select the teams for participation.

STRENGTH OF TEAMS: The Bluegrass Tournament has become a highly competitive and heavily recruited event. This is due mainly to the large number of outstanding clubs that participate. Our primary objective is to maintain a high level of excellence by prioritizing STRENGTH as a key consideration for acceptance.

DIVERSITY: We believe an important ingredient of a successful tournament is the ability to offer diversity. Teams appreciate and enjoy having good competitive matches with as many different teams (clubs) as possible. We have been fortunate to provide this diversity and hope to continue doing so.

PREVIOUS SUPPORT: We will consider the support you have shown for this event in past years when reviewing your application

REDUNDANCE: Contrary to the DIVERSITY topic above is REDUNDANCY. One complaint we have had is that in the weaker divisions, teams have had to play three or four teams from the same club. We realize this is not what people are looking for, and it will undoubtedly be a consideration. It becomes a difficult task when large clubs have 6-8 teams in the same age division.

HOUSING: The Bluegrass Tournament for all three-day divisions is NOT a stay-to-play event. Housing for all two-day divisions is mandatory. Those clubs participating in the three-day event and booking with our housing company are given preference in the selection process.
